Price is \$10 parking; \$7 for adults and \$3 for seniors.

#### **Information Item:**

##### **A. Transportation Update: Mike Luken – PCTPA**

PCTPA is posturing Placer County jurisdictions for the best chance at receiving state and federal funding. A regional congested corridor plan, will address roads with severe congestion like Interstate 80, train and bus lines, and even bicycle and pedestrian trails. The goal is to eliminate gaps in transportation on an entire corridor that people travel on every day.

One of the ways PCTPA is hoping to reduce traffic congestion on Highway 65 is by working with regional partners and developers to construct the Placer Parkway, a 15-mile long limited access expressway, connecting State Route 65 near the Whitney Boulevard interchange in Rocklin with State Route 70/99 north of Sacramento. This would create an additional east west connection between Placer County and Highway 99, so that people coming from south Placer County will have another option to travel to Sacramento without needing to jump on Highway 65 to Interstate 80

PCTPA is also looking into the county's transit needs. Unmet transit need is an identified need, which is not currently being met through

the existing system of public transportation. Each year, the PCTPA works with local transit providers and the public to identify these needs, determine which needs are reasonable to meet, and ensure the funds are expended appropriately.

**Utilizing SB1** –The Road Repair and Accountability Act - Placer County has received \$21 million in new transportation funds from SB1 over the past year and could receive over \$179 million more SB1 funds over the next 9 years. SB1 funding covers the following:

**Public transit** – operating cost of Roseville’s Transit, Placer County Transit and Auburn Transit combines 21 bus routes. SB1 funding will provide maintenance and repair of 49 buses across Placer County’s three agencies; it will also provide safety improvements and expansions of the Capitol corridor train service between Auburn and San Jose.

**Pedestrian Safety** – create ADA accessible curb ramps at intersections across the county; create bike lanes and pedestrian paths on Washington Blvd in Roseville, addition of sidewalk on Taylor Road in Loomis and intersection and sidewalk improvements in Rocklin.

**Local Congestion Management** – replacement of traffic signal at Rocklin Road and Pacific Street with multi lane roundabout; widening and signal improvement and resurfacing Highway 49 through Auburn.

**Road and Bridge Management** – replacement of asphalt with roller compacted concrete to triple life span of roadways; resurfacing or more than 8500 feet of local road around Auburn and rural road repair of more than \$2 million.

**Current Projects:**

Placer Parkway  
I-80 / Hwy 65 interchange improvement project  
I-80 Auxiliary lanes

**Completed Projects:**

Improvements of Highway 65  
Lincoln Bypass  
Improvement on I-80
